S2T GRASS REINFORCEMENT

**Interlocking ground reinforcement system
Ideal for tracks, green field parking, golf-cart ways**

- § durable, all weather surface which prevents rutting
- § can normally be rolled into unprepared soft grass surface
- § secure interlocking tiles prevent standing edges
- § self-anchoring
- § textured surface for safe grip
- § excellent load bearing and weight distribution properties
- § can withstand loads of up to 40 tonnes/m² once laid
- § grass grows back through the tiles in a short time, preserving the character of the environment
- § tiles allow water to pass through them. Natural drainage maintained
- § planning permission not normally required
- § no special tooling or skills required for installation
- § easy to install yourself in a short time
- § tiles can be removed later, if required
- § no splintering or risk of injury
- § low cost when compared to alternative options

**Easy to install in
3 simple steps**

**Transforms soft ground
into a stable base**

**Grass grows back
through the tiles**
